Re: **RCRA § 3007 Information Request**
Hatco Site - EPA I.D. No. NJD 091 399 329

Dear Ms. Jones:

We are in receipt of your letter dated August 8, 2014 requesting a ninety (90) day extension to respond to our RCRA § 3007 Information Request Letter ("RCRA IRL") dated July 31, 2014.

The RCRA IRL contains two questions. The first question requests that you provide narratives/detailed descriptions of the remedial activities being conducted at the Hatco site, and the progress made thus far in completing those actions. The second question in the RCRA IRL asks that you provide information on any environmental assessments or other activities that have identified, or are being proposed to identify, any *off-site* contamination; provide narratives for those activities; and include any documentation, such as sample analyses, for those activities.

According to your letter, the basis for requesting a total of 120 days to provide the information contained in our RCRA IRL is that the "[c]ompiling [of] information to develop an interim submittal... will take an additional effort, requiring additional time" and that your response would include "documentation that was intended to be included in comprehensive reporting upon completion of the ongoing remediation activities".

You may contact Mr. Ronald Voelkel to discuss how your response may be narrowed or streamlined to provide the requested information in a concise manner.

At this time, a sixty (60) day extension is being granted. This would make your full response due on or about November 1, 2014. However, documents should be submitted as they are compiled.

Please be aware that failure to adequately respond in a timely fashion may subject Weston/Hatco to an enforcement action, including monetary penalties.

Please direct any questions you have concerning this matter to Mr. Ronald Voelkel at (212) 637-1470 or voelkel.ronald@epa.gov.

Sincerely yours,

Leonard Voo
Chief, RCRA Compliance Branch
